Doug's Reflection

11-22-26 OUR LORD JESUS CHRIST, KING OF THE UNIVERSE

This is our last Sunday of Ordinary time for the year. Next Sunday is the first Sunday of the Advent Season. But for now we celebrate our Lord Jesus Christ as King of the Universe. Because He is! There is also something very special about today as well. This is our last Sunday before Thanksgiving. And I firmly believe that the Thanksgiving weekend preceding the Season of Advent is there by design. Advent is a time when we anticipate the coming of the Word made flesh. And what a lot for which to be thankful! In a more worldly sense, we have more to be thankful for than nearly 98% of the world's population. Think about how you are living, and give thanks that you are not a homeless beggar on the streets of Calcutta. Give thanks that you live the way you do, where you do. No matter what may be going on in your lives, give it all over to God. And give thanks!
